Volvo Penta has changed the recommendation for oil quality in S-drives.

S-drives manufactured September 2010 onwards will have a sticker with the information "SAE 15W-40 ONLY" attached in connection to the oil filler. Older drives have a sticker with the text "ATF OIL ONLY".

Volvo Penta recommends that all S-drives change from ATF oil to engine oil SAE 15W-40 at next oil change.

For problems concerning sliding / delayed engagement Volvo Penta recommend change of disk package and replacing the oil with engine oil SAE 15W-40.
